OFFICERS TO ARMY

ALSO SENDS WORD TO ITS MINISTERS TO RETURN FROM LONDON.

BULGARS NOW READY

With Servian Army It Will At Once Attack Adrianople and Try to Take Fortress by Assault.

[BY ASSOCIATED PRESS.]
Constantinople, Jan. 31.—All officers and men of the Turkish army on furlough have been ordered to rejoin their regiments within twenty-four hours. The military governor of the capital has issued an emphatic denial of the reports of dissension among the Turkish troops.

Ordered Home.
London, Jan. 31.—The Turkish government today sent orders to the Ottoman peace plenipotentiaries to leave London at once for the Turkish capital according to a dispatch from Constantinople.

Ready for Battle.
Sofia, Jan. 31.—It is believed that the Bulgarian and Servian troops besieging the fortress of Adrianople propose to take the place by storm regardless of the sacrifice of life such an attack would entail.

No Witnesses.
Bulgarian army headquarters today announced that no foreign military or newspaper correspondents would be allowed to follow the forthcoming operations, and this is taken as an indication that such an attack is contemplated.

Well Equipped.
Adrianople is still supplied with plenty of provisions and ammunition according to soldiers who deserted today.

Europe Aroused.
London, Jan. 31.—The overwhelming strength of public opinion throughout Europe in favor of peace in the Balkans is exercising a profound influence on the peace delegates in London. The European ambassadors here soon will make themselves the mouth-piece of this widespread sentiment in order to convince some of the more unyielding spirits among the representatives of the allies.

Diplomats Busy.
European diplomats take the view that Turkey, especially after the revolutionary movement which brought into power men considered irreconcilable on the question of Adrianople, could not offer more than what was contained in yesterday's reply to the powers. This they think justifies the resumption of negotiations between the allies and the Ottoman empire.

Would Divide City.
The Turks, with their usual shrewdness, instead of simply asking for the holy shrines and a few monuments of religious character in the city of Adrianople, suggested dividing the city by the river Mariza, taking the part situated on the left bank. This gives them the lion's share, although they leave to Bulgaria the railway station on the line communicating with Macedonia.

Not Final.
This concession, however, is not regarded as their final word on the subject. The way to an accommodation between the parties may still be left open. It is thought the men now sitting at Constantinople wish to have at least the appearance of not ceding as much as their predecessors.

Germany Watchful.
Berlin, Jan. 31.—Great pessimism regarding the Balkan situation is displayed in official circles here owing to Bulgaria's uncompromising attitude. Germany and the other powers are doing their best to persuade Bulgaria and Turkey to attempt the compromise, but the resumption of hostilities on Monday is regarded as probable. The situation causes concern to the German government which fears that if the war be resumed Bulgaria may push matters beyond her own interests.

Young Delano was 25 years old, a Yale graduate and son of Eugene Delano, a well known New York banker. He left New York for Winnipeg on Friday last. He was in good health and spirits and the family can assign no motive for his act.

SAFE BLOWERS' WORK

Aged Watchman in Chicago Department Store Frees Himself Just In Time to Escape Flames.

[BY ASSOCIATED PRESS.]
Chicago, Jan. 31.—For four hours early today Michael Roser, 65 years old lay bound and gagged on the floor in a north side department store where he had been left by safe blowers and watched smoke curling up from smoldering blankets used by the thieves to deaden the sound of an explosion.

Fearful that he would burn to death without being able to give an alarm, Roser made a frantic effort to free himself when he saw the blankets ablaze.

He was successful in loosening a tie which held his arms and the removal of the gag from his mouth and the ropes about his legs was a matter of but a few moments. He telephoned an alarm first to the fire department and then to the police. When the former arrived the interior of the building which was of two stories, was in flames and the structure and contents were destroyed with a loss of \$75,000.

The safe blowers, four in number, broke into the store shortly after midnight and according to Roser were only a few minutes blowing open the safe and employing with \$1,200. Roser was employed in the store as a night watchman.

STATE FOREST RESERVES,
TUBERCULOSIS HOSPITAL

Bill Providing for Removal of Stronger Wares Patients to Northern Woods, Will Be Introduced.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Jan. 31.—The treatment of tuberculosis patients in the state forest reserves in Northern Wisconsin will be proposed in a bill which will be presented to the legislature next week. It is understood that the bill will have the backing of health organizations, physicians and the public interested in eradicating the white plague.

It is claimed that a number of patients could leave the Wales sanatorium earlier, if there were only some place they could go to and do little work and still continue upon the diet prescribed in the state of New York such a plan has been in successful operation and it is now planned to adopt the idea here.

Only a small appropriation to build a few rough shacks will be necessary and work for a number of the patients can be given them upon the state forestry reserve. The matter has been thoroughly gone over by the committee and the plan is meeting with general favor among the members.

PRESENT EAU CLAIRE
NORMAL SCHOOL BILL

Appropriation of \$80,000 Asked for New Institution.—Want Door County Parks Improved.—Other Matters.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Jan. 31.—A bill appropriating \$80,000 for the erection of a state normal school at Eau Claire was introduced in the senate late yesterday by Senator Ackley. It is to be built on the site already selected by the board of normal regents and accepted by the state.

The legislature of 1909 voted to give the next normal school to Eau Claire, and with this understanding the site was chosen, and donated by the city and the state's approval given hereto. It has since been graded and beautified, and it is expected that every effort will be made by Eau Claire citizens to induce the legislature to fulfill the conditions thus made.

Sensor Ackley, whose home is at Chippewa Falls, in an adjoining county, is preparing to exhaust all means in his power to secure the passage of the bill, and in this will be supported by Assemblyman Henry Laycock of Eau Claire.

The proposed appropriation is for a three-year period from July 1, 1913. Ask Park Improvement.

To prevent the further ruin and waste of lands and property of the state park in Door county, the county board petitioned the legislature today to appropriate money for roadways around and through the park. The memorial declares that by the state purchasing this land for a park the farmer residents of the territory have vacated it and that this tract which "was once a happy, prosperous farming district, now presents a scene of neglect, desolation, waste and abandonment, its highways being wholly neglected so as to become a nuisance and a menace to the traveling public. The farm orchards and houses are going to waste and decay." It is understood that an appropriation of \$20,000 will be asked of the legislature.

Real Estate Titles.
Senator Victor Linley of Superior offered a bill at yesterday afternoon's session calculated to cure titles in real estate in the case of foreign corporations which have not filed their articles of incorporation but which subsequently file after the conveyance of such real estate has been made. Assemblyman Philip Gannon of Superior put in a bill providing that where 10 percent of the electors in a municipality file a petition with the city clerk praying that the question of discontinuing the use of voting machines be submitted to popular vote, that an election may be held on the subject.

Discontinuation of voting machines has been widely expressed in Wisconsin cities of late, based on the confusion caused many voters.

County Superintendents.
A bill has been prepared designed to require that county superintendents of schools shall have no other occupation during their terms of office. Some are business men, some farmers, some of other widely diversified vocations. This bill follows closely upon yesterday's action of the county superintendents in state convention here, in going on record against the proposed law creating a county board of education in place of the county superintendent, a measure endorsed by the state board of public affairs and the committee of fifteen. The vote of the superintendents was 42 to 23.

London Women Continue Depredations in Their Fight for Right to Vote.

[BY ASSOCIATED PRESS.]
London, Jan. 31.—The British suffragettes have adopted the slug shot as a weapon. With it they hurl heavy leaden disks stamped "votes for women." Their aim has not been good and the damage thus far has not been great. The disk is said by doctors to be capable of killing a man.

An actress named "Jacky" Melford was charged at police court this morning with bombing shop windows with one of those catapults used from the top of an omnibus. She was fined \$10 or a month's imprisonment. Her father paid the fine.

The suffragettes continue to set fire to the contents of the street letter boxes. Several thousand letters were destroyed at various points this morning.

President-Elect Wilson Resents Inference That He Will Name Men From List Suggested By Friends.

[BY ASSOCIATED PRESS.]
Philadelphia, Jan. 31.—President-elect Wilson does not feel that he is limited in picking his cabinet to the men who have been suggested to him by political leaders and friends of candidates. While riding to Philadelphia from Princeton to see a dentist he read some of the published reports which drew the inference that because he was unable in his conversation with the correspondents last night to recall off hand who had been suggested for the secretaryship of state besides Mr. Bryan the selection of a Nebraskan was indicated.

"There is absolutely no justification for that inference," declared Mr. Wilson today. "I could not recall the names of men who have been suggested for other portfolios either."

He paused and added after a moment's reflection, "and I might be making some nominations of my own for I certainly will not feel bound to confine myself to names that have been suggested to me." The governor took occasion to reiterate that Col. E. M. House, his intimate friend who also is close to Mr. Bryan, had not gone to Miami, Florida at his direction.

The governor has found that he will have to give up several days between now and his inauguration for trips to the dentist.

"It's the penalty of years of delay," he said regretfully.

NEW EXPRESS RATES
EFFECTIVE MARCH 1

Railroad Commission Will Announce State Schedule After Interstate Order is Issued.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Jan. 31.—March 1 is the time set when the new express rates for Wisconsin will go into effect. It has been decided to put the rates to be announced soon by the railroad commission into effect the same day that the order of the interstate commerce commission on express rates become effective. The federal rates are now being held in abeyance on the stipulation that objections to the proposed order would be filed Feb. 8, and that new interstate commerce express rates would become effective the first of the following month.

Halford Erickson of the Wisconsin railroad commission said today that the order for the change of rates is ready to be announced, but to avoid conflicts with the federal rates it will not be entered until after these rates have been announced. Under an announcement of the federal commission the new rates will be effective March 1, and Mr. Erickson said the Wisconsin rates would be prepared to go into effect simultaneously.

Home Rule Victory
IN IRISH ELECTION

Londonderry Defeats Unionist Candidate in Election Yesterday After Exciting Campaign.

[BY ASSOCIATED PRESS.]
Londonderry, Ireland, Jan. 31.—The Irish home rule party won a notable victory over the Unionists in the election of a member of parliament for this city yesterday. The poll, which was as usual a very close one, resulted as follows: David C. Hogg, nationalist, 2669; Col. H. A. Pakenham, unionist, 2642, majority 27.

The seat had been held since 1910 by the Marquis of Hamilton who was recently elevated to the house of lords on the death of his father, the Duke of Abercorn. The victory of the home rule party gives them a majority of members of parliament from the province of Ulster in the house of commons. Extraordinary efforts were made by both parties to bring every elector to the polls and as a result of their exertions out of a total electorate of 5462 voters, 5341 cast their ballots. Many of the sick and infirm inhabitants were taken to the polling booths in ambulances.

The announcement of the result of the polling was followed by "extraordinary scene. The pent-up excitement of the populace was vented in wild demonstrations. A deafening tornado of shrieks, cheers and hisses broke loose and this was accompanied by the firing of revolvers. The nationalists sang "A Nation Once Again" to which the unionists responded with "Rule Britannia" and "God Save the King."

AUTHORIZE INQUIRY
INTO EKERN AFFAIR
BEFORE THE SENATE

Senator Bosshard of La Crosse Introduces Resolution Setting Date for Investigation, Wednesday, February 5.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Jan. 31.—The senate late yesterday ordered by a unanimous vote an investigation into the governor's action in ordering the removal of Herman L. Ekern as insurance commissioner, and fixed next Wednesday Feb. 5, as the date. The resolution to this effect, and another calling upon the secretary of state to produce all the records in his possession bearing on the case, were offered by Senator Otto Bosshard of La Crosse, who took the floor in their support. Senator Bosshard asked for delay upon the ground that more senators should be present. Senator Joseph socialist, counseled immediate action.

"Don't let's sidestep and drag this matter along," he said.

On Feb. 5, by the terms of the resolution, the senate will resolve itself into a committee of the whole to hear the testimony. Governor McGovern Executive Clerk Harry C. Wilbur, Lewis A. Anderson and Herman L. Ekern are asked to appear by counsel to give testimony.

Text of Resolution.

"Whereas, there was transmitted to the senate on the fifteenth day of January, 1913 a communication by the governor submitting for the confirmation of the senate the appointment of Lewis A. Anderson as commissioner of insurance, vice Herman L. Ekern removed, and said appointment is now pending before the senate for confirmation, and a question has been raised as to whether there is a vacancy in said office of commissioner of insurance, and whether there has been any lawful removal; and

"Whereas, it is charged that in the proceedings had in the making of said order of removal the governor acted without jurisdiction upon grounds not recognized by law, and that the official act of removal was not completed during the recess of the legislature, and that for these and other reasons said order is void; and

Want Full Facts.
"Whereas, it is further charged that the governor acted arbitrarily and without proofs, and that in the hearing before the governor the commissioner of insurance was not permitted to conclude his testimony, and that the governor refused to hear the testimony of material witnesses, including members of the legislature who desired to be heard, and it is improbable that the full facts with relation to said matter will be developed in any action or proceeding in the courts relating to said matter; and

"Whereas, the governor has appointed Lewis A. Anderson temporarily to fill the vacancy claimed to exist by reason of such removal, and such appointment was not made during a recess of the legislature and Lewis A. Anderson, Jan. 31, attempted to qualify under said appointment by the filing of his oath and bond, and attempted to take possession of said office temporarily, pending such action on such recommendations by the senate; and

Reviews Capitol Fight.

"Whereas, since the making of said order down to the present time, Herman L. Ekern has continued to occupy said office of commissioner of insurance and discharge the duties thereof under the claim that the said order of removal is void; and it is charged that Lewis A. Anderson, while serving as actuary under and in the office of Herman L. Ekern, commissioner of insurance, secretly connived with Francis E. McGovern, governor, to be appointed to said office under said order of removal and to take immediate possession thereof; and it is charged that upon the refusal of Herman L. Ekern to vacate said office on the demand of Lewis A. Anderson, the said Lewis A. Anderson, aided by William J. Essmann, superintendent of public property, acting under the orders and direction of Francis E. McGovern, governor, without authority, attempted to batter down a door in the office of Herman L. Ekern commissioner of insurance, and to seize and eject him from said office by force, and that said attempt only ceased upon the service of an injunction order obtained by the said commissioner of insurance; and

Need Removal Method.

"Whereas, the office of commissioner of insurance is of high rank and dignity and of great importance to the people of the state; and

"Whereas, the questions raised with regard to such removal of the commissioner of insurance and the appointment of another person in his stead may be raised in like manner with regard to other commissioners and members of other important commissions, such as the railroad, industrial and tax commissions, and it is important that the law should provide a definite and uniform method of removal; and

"Whereas, intelligent and proper action on the part of the senate, justice to the said commissioner of insurance, and the public interest require that all the facts and circumstances relating to such removal or attempted removal and filling of any vacancy in such office should be fully made known; now,

Resolved, that the senate do, on Wednesday, the fifth day of February, at 10:30 a. m. resolve itself into a committee of the whole for the purpose of making full inquiry into the following matters and reporting thereon to the senate:

Four Questions Up.

WORKS RESOLUTION
FOR SIX YEAR TERM

AND RESOLUTION OWGB MNZMZ AND SEVERAL OTHER AMENDMENTS ON PRESIDENTIAL TERM BEFORE THE SENATE.

EXCLUDES ROOSEVELT

From Possibility of Another Chance to Occupy Chief Executive's Chair—Single Term Favored.

[BY ASSOCIATED PRESS.]
Washington, Jan. 31.—Nearly a dozen important amendments and counter proposals were pending before the senate today when it resumed consideration of the Works resolution for a single six year presidential term. Those included many amendments designed to exempt Wilson, Taft and Roosevelt from the effect of a change in the constitution and some amendments drawn as to expressly exclude Col. Roosevelt from another term.

Two Term Limit.
At least four of the amendments pending were to restrict a president to two terms, but to count a fraction of a term as a full term. An amendment by Senator Gallinger proposed a four year term with the provision that "no person who has held the office by election or discharged its powers and duties or acted as president should be eligible to hold the office by election more than one additional term."

An amendment by Senator Hitchcock was similar but provided a six year term with one re-election. An amendment by Senator McCumber also limited a president to two four year terms, and provided that any service for the "major fraction" of a four year term should count as one term. Senator Williams' amendment similar to this would have counted any fraction of a term as a full term.

Roosevelt Ineligible.
Under any of these amendments Col. Roosevelt would be ineligible for re-election. An amendment by Senator Paynter proposed to extend the six year term to the president in office when the constitutional amendment should be ratified. Another by Senator Dixon proposed expressly to exempt president-elect Wilson from the restriction of a single term, and an amendment by Senator Root proposed to make the single term after March 4, 1917. An amendment offered by Senator Clark, democrat of Arkansas proposed that the new constitutional amendment should not affect the president in office when adopted or any former president. This would have exempted Wilson and Roosevelt.

"I did not believe any one would insist that this legislation was aimed at Col. Roosevelt," declared Senator Cummins today.

Root's Amendment.
Senator Root's amendment making the presidential single term constitutional amendment effective March 4, 1917, was defeated by viva voce vote, but by demanding a roll call it will come up later for further consideration.

Senator Hitchcock favored that Wilson, Roosevelt and Taft have one six year term under the amendment. Senator Borah objected, declaring the amendment would be for their convenience.

Senator Paynter proposed that the term be effective 1921. Senator Works author of the measure favored Hitchcock's plan. Senator Clark opposed it saying, "It is this change in the constitution is wise and be adopted apply it to every man."

Favorable report on the bill to authorize a physical valuation of railroads is expected early next week from the senate committee "on interstate commerce. Senator La Follette has it in charge, and it is said the committee approves his recommendations. The bill has passed the house.

While no agreement has been reached it is understood the committee will make an urgent appeal for adoption of amendments to make the Sherman law more effective in its control of trusts and monopolies.

BEGIN CUTTING ICE IN RIVER ABOVE DAM

City Ice Company Has One Hundred Men and Four Teams at Work—Only Partial Supply in Sight.

The City Ice company yesterday began cutting and packing ice from the river above the upper dam with a working force of 100 men and four teams. At the present time the cutting is confined to the bay and the supply of ice there will not fill the big ice house on North Main street to more than half its capacity. Out in the current of the stream the ice is very thin and there is great danger of teams and men falling in. Unless the present spell of cold weather continues the visible supply of ice will be all packed by tomorrow night and it will be necessary to lay off the men and teams until more is formed. Ice was drawn from near Monterey to fill the ale brewery ice house. It was cut in slack water and was of good thickness and fine quality.

An Open Letter to the Public

An Erroneous Report and Its Correction.

A statement, wrongly incorrect, has been spread, broadly regarding the safety of the new Apollo theatre building. This malicious report was doubtless originated by someone not friendly to our new enterprise and to say the least is a very small proposition on the part of the person or persons starting it and absolutely without foundation.

Last evening over 250 people attended the dancing party in the Apollo hall, the upper portion of the building. In the theatre proper 750 people were seated. It is doubtful if there will ever be a greater strain placed on the structure at any time.

To go farther, a word regarding the construction of the building. Five immense steel beams weighing 5 1/2 tons each, resting on huge brick piles support the upper part of the house, where any strain that the building might be subjected to, would fall.

We know of no better form of construction or it should have been used. Expense was not spared to make the Apollo building modern and absolutely safe in every possible way.

SAFETY WORK DONE ON ST. PAUL ROAD

A. W. Smallen, Chairman of Committee Writes Interesting Account of Movement Begun a Few Months Ago.

The St. Paul railroad safety committee which had its meeting a short time ago and all matters that were brought up at that meeting have been remedied as far as possible.

The members of the local committee are: C. H. Agrian, train dispatcher; H. V. Kressen, roundhouse foreman; L. Michaels, brakeman, John Falter, engineer; O. J. Franklin, road master; R. Young, machinist; E. J. Northrup, transfer foreman; the late John Nash was a member of the committee.

W. Morrison, superintendent of the Mineral Point division is chairman of this committee. An interesting letter on the history of the safety first movement on the St. Paul railroad was received from A. W. Smallen, chairman of the general committee which is printed below.

On August 1st, 1912, the Chicago, Milwaukee and St. Paul Railroad Company commenced the organization of safety committees on the different divisions and shops of the road and at the present time have thirty-five committees with a total membership of about 615.

Each committee holds monthly meetings for the purpose of discussing safety problems and to consider and take necessary action on suggestions for the promotion of safety made by their fellow employees in the different crafts.

The committees are composed of about six or seven employees and the same number of officials, who work together to advance the safety movement.

Men while serving as committee men do not lose any time and are not put to any expense while attending committee meetings or on an inspection trip over their divisions with the chairman of their Division Safety Committee.

In addition to committee meetings, general meetings are held from time to time at which all employees are invited to attend with their families. The object of these general meetings is to keep the safety question in the minds of the employees and to hear their views, and for this purpose short talks are given by members of the different crafts.

Mr. A. W. Smallen, Chairman of the General Safety Committee, which is composed of about nine general officers of the company, with headquarters at Chicago, submits statistics and talks on the safety movement in general and points out ways and means in which to overcome a great many accidents.

Short talks are also given by good speakers who have given the safety question considerable thought. Each employee is given a pin with the word "Safety First" printed on it, and each committee man wears a silver pin with the words "Safety First Committee" by which he can be distinguished as a member of the Safety Committee, in order that employees may know to whom they should report anything which they think should be acted upon by the Safety Committee.

The object of this Safety Bureau is to safeguard the employees, as well as the travelling public, by instructing them in the safest manner of doing their work, and to keep the motto "Safety First" in mind at all times.

The employees of the Chicago, Milwaukee and St. Paul Railway have shown great interest in this movement, and have shown their hearty co-operation with the officials of the company by their efforts to reduce the number of accidents to a minimum.

Suggestions are always welcome by all members of the safety committees.

Sport Snap Shots

by Dan McCarty

"I wouldn't be surprised if I quit baseball," sighed Jim Delehanthy the other day. Jim is the big blazer in the American Association, where he hit to the tune of .418 in 27 games last year. "No, I'm not a holdout. I can get a much more money as I'm worth to a minor league club." I'm just tired of playing

ball." Whereat Del heaved another sigh. Delehanthy has been in baseball 14 years and will be 34 next June 20. He wants to go on the police force, and has passed the required examination.

Luther McCarty has the proud distinction of being the handsomest prizefighter who ever wore a championship belt. He's Apollo all over again, and could easily win the highest class beauty contests. Luther is 6 feet 3 3/4 inches tall, weighs 205, and has a build that artists might rave over. His nose is still straight, and the pristine beauty of his face has not been spoiled by punches.

Are the expressions of sympathy which are heard on every hand over

the plight of Jim Thorpe deserved? Jim Thorpe is not a simple child. He knew just exactly what he was doing when he went into professional baseball. He knew that he could not honorably take part in amateur athletics after having played a season or two of professional baseball. He knew when he went to Stockholm as an American representative in the Olympic games that if his professionalism should be discovered the revelation would bring humiliation to his native land. Knowing all these things he went right on, protesting constantly that he was an amateur. It may be doubted whether the expressions of sympathy will be heard very long.

Whether Thorpe is to be condemned for his course or not, there can be no question but that the Amateur Athletic Union deserves the condemnation which has already been heaped upon it. Had the A. A. U. followed the course of duty it would have looked into Thorpe's record before he went to Stockholm. Also it would take some action with regard to the scores and scores of professionals who are playing as amateurs in all the colleges of the land. The term "amateur" when applied to athletics is getting to be a joke. It would not be were the A. A. U. strictly on the job.

Joe Mandot, the New Orleans fighter, manages to keep busy. Immediately after his bout with Tommy Murphy at San Francisco on Washington's birthday, he will take a flying trip back to the Crescent City, where he will meet two other fighters of renown—Jack Britton and "Knockout" Brown of New York city. Both fights will be for ten rounds and will be pulled off in March.

Burgett, Farnsworth and Holme and Lynch and Murdoch to be played off tonight.

EXPECT A VICTORY IN GAME TONIGHT

Janesville High School Five Meets Evansville Team on Latter's Floor.

Janesville high school basketball team goes to Evansville tonight to meet a hard foe in the high school team from that place. The result of the game is in doubt but the locals feel sure of victory. The Evansville boys have been unusually successful this year, and have defeated the Oregon, Brooklyn and Brodhead fives by fairly large scores. They hold the title of champions of Southern Wisconsin and the locals are disputing their claim. Tonight's contest will decide which team is the leader in Southern Wisconsin circles. The locals are on their onward march to the tournament, and with a team as good as last year's there should be no worry as to their success.

The lineup tonight will be Capt. Falter and Edler, guards; Fleming, center; Atwood and Dalton, forwards. Stewart Kuhlow and Ryan will accompany the team as substitutes. The squad will leave on the seven o'clock train.

RABBIT HUNTING SEASON CAME TO CLOSE TODAY

Fewer Taken by Hunters in Former Years—Complaints as to Ferrets Not Numerous.

The rabbit hunting season which opened on October 10, came to a close today and the cotton-tail will be unmolested for eight months except by its natural enemies the farmer's dog and law-defying sportsmen. Fewer rabbits were shot this year than last according to current reports. The leveling of the forests and groves and the clearing away of underbrush leaves them little protection and the young rabbits are easily taken by hawks and owls. Complaints as to hunting with ferrets have not been numerous and these were mostly in the early part of the season.

FINED FOR HUNTING RABBITS WITH FERRET

William Fry of Whitewater Pleaded Guilty in Municipal Court Here Today—Fined \$10 and Costs.

William Fry of Whitewater this morning pleaded guilty in the municipal court to hunting rabbits in the town of Lima with a ferret on January 12. He was fined \$10 and costs. Fry is a young man, twenty-one or twenty-two years of age and was placed under arrest by Deputy Game Warden W. P. Mason following a complaint and investigation. It is reported that a fox was shot in the town of Lima yesterday after a long chase in which several dogs were lost. A number of hunters have been going there to hunt coons.

Life Insurance Companies

They Are Closely Observing Public Health Conditions.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that the reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of applicants do not even suspect that they have the disease.

He states that judging from his own experience and reports from druggists who are constantly in direct touch with the public, there is one preparation that has probably been more successful in relieving and curing these diseases than any remedy known. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of cures.

We find that Swamp-Root is strictly an herbal compound and we would advise our readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes—fifty-cents and one-dollar.

However, if you wish first to test its wonderful merits, send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle, absolutely free. When writing be sure and mention the Janesville Gazette.

DIVORCE QUESTION.

Congratulatory letters by the score were received by the author, Wm. Anthony McGuire, during the run of "The Divorce Question" at McVickers Theatre in Chicago.

Lack of space prevent the publication but the following from Governor Edward F. Dunne, is sufficient to prove how the public endorsed this gripping play: William Anthony McGuire, Author, "The Divorce Question."

Dear Sir:—

I attended with much satisfaction the first performance of your very excellent play "The Divorce Question" and was moved by the powerful presentation of the evils of the present lax divorce laws of our country.

The play does not nince either words or situations and leaves a lasting impression upon the spectator; its situations while brutal in their intensity are unfortunately not overdrawn.

In a word, it is a play with a moral and I congratulate you upon the force and power with which you have presented the subject. EDWARD F. DUNNE.

Sunday Attraction.

Scheduled to appear at the Myers Theatre Sunday, Feb. 2nd, is "Nobody's Claim," a Western comedy drama in four acts. This play has been presented in every large city in the United States and Canada and is considered a corking good comedy drama. The scenes are laid in Colorado in the days of "49" when the gold fever caused so large an immigration to the west. The plot is an exceptionally good one with a strong heart, interest and plenty of that western breezy comedy. A pretty love-story and startling climaxes.

MAJOR LEAGUES BID FOR INDIAN STAR

Carlisle Athlete, Whose Confession to Professionalism Caused Stir, Gets Flattering Offers.

James Thorpe, the Indian Athlete and Olympic champion, who recently admitted to being a professional, will undoubtedly enter the field of major league baseball for at least five of the big league managers are tempting him with flattering offers. Thorpe will finish his course at Carlisle in the spring. It is reported that Thorpe will not join the Pittsburgh club because he believes that it was one of the Pittsburgh scouts that revealed the secret of his playing with the minor league team. Murphy of the Cubs, and Col. Hedges of the St. Louis Browns, are among those who have tried to land the Indian with contracts. Callahan and Charles Comiskey will put forth their best efforts to have the Carlisle star on the White Sox pay roll.

With the Indian's natural athletic prowess and his great popularity, he should make a shining light on the diamond. He has the speed and strength to make good and anyone who can heave the shot as far as he can ought to be able to throw the ball like a bullet. Thorpe has been a pitcher, an outfielder and first baseman. If he goes to the big league he will be tried out in the outfield where feetness of foot will enable him to pull off some "Ty Cobb" catches. He pitched for the Carlisle team but college pitchers invariably fail to make good until after being farmed out and coached by veterans.

Seek Reinstatement. Carlisle, Pa., Jan. 31.—It was learned here today through friends of James Thorpe, the Indian athlete, that efforts are being made to secure his reinstatement as an amateur. In the meantime the Olympic champion will not act upon any offers made to him by managers of professional baseball clubs.

Captain Miller's Team Still Has Slight Lead Over Captain Baker's Players.

In the second night's play in the Elks' Pocket Billiard Tourney last evening Arthur Harris, of Captain Baker's team defeated Munson 30 to 26; Jules Levy of the Miller team won from Al Wilson 30 to 23; William Keene of the Miller team from P. J. Mount 39 to 24; and Harold Schwartz from Ben Smith of the Miller team 30 to 10. This leaves but the games between Levy and Nolan, Atwood and

WEATHER FORECAST.

Janesville and vicinity: Fair tonight and Saturday; colder tonight.

IN OTHER CITIES.

That the lid is off in many cities around the state, is evident from reports of daily occurrence. The cities of Racine and Marinette run the open saloon seven days of the week, and many other cities are in the same condition. A news item of late date from Wausau, says:

"The slot machines are going to go. The police department is making an investigation as to the number of slot machines that are being operated in the stores about the city where children are allowed to play, attention having been called to the violations of law by the Record-Herald. This morning the proprietors of two small stores on Third street, near the Y. M. C. A. building, were notified by Detective Henry Schwister to remove offending machines and it was officially announced this afternoon that the work would be continued until all of the gambling devices had been removed. In the next block, however, a poker machine was running at full blast late this afternoon.

"It will take a little time, the officers claim, to rid the entire city of the devices, but it is expected the work will be continued until there has been a clean sweep."

"There is some satisfaction in knowing that Janesville is no worse than many other cities, but it is up to the people to say whether the reforms already established shall be maintained or whether we shall drift back to the old order of things."

No man should consider it a burden to live within the law. If laws are unjust the remedy is to have them remedied or repealed, but so long as they exist, no man has the right to violate, and demand protection.

CHEAPER GASOLINE.

The following paragraph from a New York paper, is of interest to automobile owners, and indicates that the Standard Oil company has competition near home.

"About 150 men were present at the annual banquet of the New York Garage-association Tuesday evening at the Wurzburger Hauptbau Broadway and Eighty-third street. This group was composed of members of the association, automobile owners, representatives of automobile companies, accessory concerns and independent oil refiners. Following the banquet, speeches were made urging co-operation in a fight for cheaper gasoline."

Judge Alfred E. Ommen stated that the only way the automobile men could hope to find relief from the prevailing prices would be to work in large numbers against the 'oil monopoly.' He declared that the advance prices not only affected garage men, and automobile owners, but also the car-makers and supply companies.

He said that people already considered the cost of gasoline as a large item in the expenses of running a car and that it prices climb higher, a falling off in the demand must be looked for. Mr. Ommen said that in New York state this situation affects a few hundred thousand men connected in various ways with the automobile industry. It will be necessary, he declared, for all men of the state, and if possible throughout the country, to form a concrete body to fight against the 'oil monopoly.'

"Another proposition was put before the body by Robert Baker, vice-president of the Hydro-Carbon Products Sales Co., and formerly congressman from Brooklyn. This concern, which uses the Turner process of refining, is backed by Chas. W. Cannon & Co. Mr. Baker declared that his company was ready to close a contract to supply the New York garage men with as high as 20,000,000 gallons of gasoline a year, delivery to begin in August, at a cost of from 10 to 12 cents a gallon. This compares with 17 cents now charged by the leading oil companies."

"A committee is now considering this offer and when the deal is closed, as it probably will be, work will immediately be started on a new refinery by the Hydro-Carbon Co. in the vicinity of Bayonne, N. J. The consensus of opinion among those present was that the association would be taking a great step forward if the deal goes through."

WILSON'S ATTITUDE.

President-elect Wilson is evidently playing politics for all there is in the game. He is smiling and suave to the newspaper men who seek information relative to his cabinet plans, tells them a good story, but mighty little political dope. However he has gone on record relative to the demand of the party spoilsmen that will surprise many greedy democrats who have been kept away from the public crib for so many years they are thirsting for a chance to enjoy prosperity and be on the public payroll once again.

Wilson's latest declaration in regard to patronage is cold comfort for the hungry spoilsmen, but it will hearten and satisfy the friends of merit and efficiency in public administration.

THE DIVORCE QUESTION.

"The Divorce Question" plays a return engagement at the opera house tomorrow night. It is one of the cleanest, strongest plays on the road, presented by a company so well balanced that every part is taken by an artist. The play means more than a choice entertainment, because it teaches a great moral, by presenting features of the divorce question which are too often overlooked. Go and see it and you will understand why the Catholic church never countenances divorce.

Now the Wisconsin state senate are going to have a little investigation all its own. This time Ekern, Anderson and McGovern are to be on the "carpet" for a rigid cross-questioning. It looks as though the little "boss" of the republican party had his finger in the political pie after all.

From present indications the recall element are going to have opposition from the very start in naming who shall run the city government, even if the petitions filed are properly drawn up. Talk of a primary to select candidates is heard on every side.

Suppose the Turkish women should turn suffragists. What would the poor Turk do then? He has troubles enough of his own, but this added burden would be the straw that broke the camel's back.

eut commissioner of labor, whose place was sought, had done his work remarkably well, and there was no cause for removing him.

This is advanced doctrine, but not too advanced from the standpoint of intelligent and public-spirited citizens. To spoilsmen it will seem revolutionary, but we cannot have too much anti-spoils revolution of this kind. Taxpayers will advise it, and government will not spell waste, inefficiency and politics in the ward heeler's sense of the term.

Pugilist Jim Flynn has become a baseball umpire. Look out now for one round contests every game. Jim will not wait to send the kickers to the club house; he will put them in the hospital.

Janesville music-lovers should not fail to support Mr. Myers in his endeavor to bring the Thomas orchestra here. It is an undertaking that the city should be proud of and support gladly.

McGovern is rewarding his Bull Moose friends with political offices under the republican regime. This is encouraging to the men who stood by the party last November and elected him governor.

January leaves us today but beware of the February fairs. Even though it is the shortest month in the year it is sometimes the stormiest.

A NEW, AND UNUSUAL LOVE SONG

Yesterday, advance copies of a new song reached Janesville. Its title is "Then I'll Stop Loving You" and is the latest work of the writers of "That's How I Need You" which made such an instant hit and quickly became a classic.

The text of this new song is excellent, though perhaps it lacks some of the elements which made the former one so successful, but the melody by Piantadosi, the Paderski of popular music, would of itself carry it to popularity.

Before the robins come back you'll hear this song whistled on the street. Your lips will begin to "pucker" almost the first time you hear it.

The lyric tells of love of course, with a fidelity that is best expressed in the chorus, the last part of which runs—

Then I'll Stop Loving You.

Chorus.

When a lad with-out a las-sie... Never feels a tri-ble blue... When a child won't miss its moth-er's kiss, Then I'll stop lov-ing you...

These three youngsters—Goodwin, McCarthy and Piantadosi, (barely out of their teens) have a bright future if they continue writing songs as musically good and as pure in text as "Then I'll Stop Loving You."

Bargains in Oriental Rugs:

Some people have an idea that when an Oriental rug is offered at an apparently low price it must be a "bargain" no matter what the colorings and general condition of the rug may be. Experience has taught us, however, that unless an Oriental rug is good it is not a "bargain" at any price.

In our opinion the best "bargains" in Oriental rugs are good, reliable and artistic rugs at reasonable prices, and that is the kind of "bargains" we are offering every day and which has made The Big Store the "Mecca" of genuine "bargain" seekers in Oriental rugs.

Healthy Baby is Precious Blessing

To Make it Healthy and Keep It Healthy Use a Reliable Baby Laxative.

DOROTHY JOHNSON.

In spite of the greatest personal care and the most intelligent attention to diet, babies and children will become constipated, and it is a fact that constipation and indigestion have wrecked many a young life. To start with a good digestive apparatus is to start like without handicap.

But we cannot all have perfect working bowels. We must do the next best thing and acquire them, or train them to become healthy. This can be done by the use of a laxative-remedy very highly recommended by a great many mothers. The remedy is called Dr. Caldwell's Syrup Pepsin and has been on the market for two generations. It can be bought conveniently at any drug store for fifty cents or one dollar a bottle, and those who are already convinced of its merits buy the dollar size.

Thousands can testify to its merits in constipation, indigestion, biliousness, sick headaches, etc., among them reliable people like Mrs. M. Johnson, 753 Dayton St., Kenosha, Wis. She is the mother of little Dorothy Johnson who was always in delicate health until her mother gave her Dr. Caldwell's Syrup Pepsin. Mrs. Johnson says: "I

never saw such rapid improvement in the health of anyone. Syrup Pepsin is a wonderful remedy and I shall never be without it again." Thousands keep Dr. Caldwell's Syrup Pepsin constantly in the house, for every member of the family can use it from infancy to old age. The users of Syrup Pepsin have learned to avoid cathartics, salts, mineral waters, pills and other harsh remedies for they do but temporary good and are a shock to any delicate system.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal bill do to Dr. W. E. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

ing some time here with his sister, Mrs. E. P. Roby, returned to his home in Iowa today.

Miss Mame Paul entertained Mesdames Barlass and Fletcher of Janesville Wednesday.

J. S. Gilbert has gone to Melrose, where after a short visit he will go to Dakota, where he will remain for a few months.

Mrs. P. R. Hull entertained a few ladies Tuesday afternoon in honor of her aunt, Mrs. Madge from Iowa.

CITY CONVENIENCES IN A RURAL SCHOOL

Exercised in One Community That
Can Be Duplicated in Others
Throughout Country.

How a small one-teacher school in the country may have all the conveniences popularly supposed to be the exclusive privilege of the city is demonstrated in the model rural school at Kirkville, Mo., according to H. W. Foght, specialist in rural education for the United States Bureau of Education. Indoor toilets and shower baths, drinking fountains, and a modern heating plant, are shown to be possible in the country school, however remote from the city. Furthermore, the cost is said to be within the means of a comparatively small community.

The Kirkville school is conspicuous for its utilization of every available inch of space. It is only a one-story building, slightly wider than the typical Missouri country school, but the attic and basement are both put to valuable use. The attic is employed for manual training and domestic science, and there is an excellent barometer. The basement contains the heating plant, a combination of hot water and hot air, described as very economical in fuel; the first room; a bulb room for the outdoor garden; and a dark room for developing photographs.

The machinery of the school plant consists of an ordinary pneumatic pressure tank, operated by a gasoline engine. A septic-tank sewer system is maintained at small expense.

The main floor of the building, besides containing the classroom, has a small community library, separate from the school library, emphasizing the purpose of the rural school as a community center. The classroom itself occupies most of the floor. The desks and seats in it are both adjustable and movable, with individual platforms, as many as 200 people can be accommodated, thus making it possible to use the room for community gatherings. The stereopticon in the wall of the classroom emphasizes still further the fact that this school is built for general community use as well as for ordinary school purposes.

Every effort has been made to have the model rural school at Kirkville approximate actual rural conditions. Although located on the campus of the Kirkville Normal School, it is detached from the other buildings. The pupils are real rural material. Every morning a transportation wagon brings in 34 country children from a distance of five miles. No town children are allowed to attend, because it is distinctly a rural school. An expert rural teacher is in charge and the school she conducts is an observation school. Candidates for rural school certificates attend it, at least once a day and observe her work, and after two years of training in the normal school they receive practice work in the school.

"Teachers who have gone out from experience in this model rural school are 500 per cent better teachers," says Mrs. Foght. "But the best indication of the value of such a school is the way its leading features have been copied. In the country about Kirkville many similar schools have been built. They do not always copy all the details, but the attic arrangements and the sanitary equipment are generally duplicated. Buildings modeled on the Kirkville school have been erected in Mississippi and Nebraska."

LA PRAIRIE

LaPrairie, Jan. 30.—Mr. and Mrs. Ed. Parker entertained at their home Sunday Mr. and Mrs. U. E. Gleason, Mr. and Mrs. George Broese, Mr. and Mrs. Will Corneau and daughter, Olive, of Janesville, and Mr. and Mrs. Peter Magee of Leyden.

Fred Rumpf and Herman Ayres of Milton visited Will Sherman Sunday. Mr. Sherman is slowly recovering. E. Parker went to Aurora, Ill., Monday.

BACKACHE A WARNING ALL SHOULD HEED

It is One of the First Signs of Kidney
Troubles, if Neglected, Serious
Diseases Follow.

No one can be well and healthy unless the kidneys work properly and keep the blood pure. When they become clogged up and inactive, nature has a way of warning you.

Backache is one of the first symptoms. You may also be troubled with disagreeable, annoying bladder disorders; have attacks of lumbago or rheumatism; become nervous, tired, and feel all worn out; puffy swellings show under the eyes or in the feet, and ankles; and many other symptoms are noticed. If these are neglected, dropsy, diabetes, or Bright's disease, which so often prove fatal, may result.

It is not only dangerous, but needless for you to suffer and endure the tortures of these troubles, for the new discovery, Croxone, quickly and surely ends all such misery.

There is no more effective remedy known for the prompt cure of all such troubles than this new, scientific preparation, because it removes the cause. It goes right into the kidneys, cleans out the walls and linings; cleans out the clogged up pores; neutralizes and dissolves the poisonous uric acid and waste matter that lodge in the joints and muscles and cause those terrible rheumatic pains, and makes the kidneys filter and sift the poison out of the blood and drive it from the system.

You will find Croxone different from all other remedies. There is nothing else on earth like it. It is so prepared that it is practically impossible to take it into the human system without results.

You can secure an original package of Croxone at trifling cost from any first-class drug store. All druggists are authorized to personally return the purchase price if Croxone should fail in a single case. Three doses a day for a few days is often all that is ever needed to cure the worst backache, relieve rheumatic pains, or overcome urinary disorders.

Mrs. C. E. Culver entertained the Larkin club Friday evening. Thornton Reid and Mrs. U. E. Gleason won first prizes at cards, and Fred Chesemore and Mrs. Hugh McCartney second.

Mr. and Mrs. Gregory Manthey and family have moved from the C. H. Howard farm to Janesville.

Little Doris Woodman is spending a couple of weeks with her grandmother, Mrs. Leda Reeder.

A number of ladies from here attended a Crofts & Reed club meeting at the home of Mrs. Ora Fisher in Janesville.

Mrs. U. E. Gleason and Mrs. Thornton Reid are spending the day in Beloit.

Mrs. Sidney Thomas entertained the Larkin club at her home on Tuesday evening. Mrs. Harry Finch and Pearl Chesemore won first prizes at cards and Mrs. U. E. Gleason and Frank Finch second.

ORFORDVILLE

Orfordville, Jan. 31.—Mr. O. A. Peterson is not so well at present. A premature walk down town during the late cold snap brought a recurrence of the former attack of illness.

An action brought by George Williams against the S. Strauss estate for fifteen hundred dollars, an amount to have been paid on the death of Mr. Strauss, was settled out of court by the payment to Mr. Williams of twelve hundred dollars.

MOLLY McDONALD A TALE OF THE FRONTIER

By RANDALL PARRISH Author of "Keith of the Border," "My Lady of Doubt," "My Lady of the South," etc., etc. Illustrations by J. L. Barnes

"I prefer to remain, sir," grimly, "Dupont, Miss McDonald's captor, is alive and in Black Kettle's camp. We still have a feud to settle."

"Good; then that is arranged; ah, Miss McDonald, allow me to present Lieutenant Chambers, Lieutenant, detail three men to guard the lady back to the main column. Have her taken to General Custer at once."

"Very well, sir; and the command?" Elliott looked at the Sergeant inquiringly.

"That is for Sergeant Hamlin to determine; he has just been scouting through that country, and will act as guide."

The Sergeant stood for a moment motionless beside his horse studying the vista of snow-draped hillsides. The region beyond the crest of the ridge unrolled before his memory.

"Then we will keep directly on up this valley, sir," he said at last. "It's Wolf Creek, is it not? We shall be safer to keep out of sight today, and this depression must lead toward the Canadian. May I exchange mounts with one of those men going back, Major? I fear my pony is about done."

"Certainly."

There was no opportunity for anything save a simple grasp of the hand, ere Molly rode away with her escort. Then the little column of troopers

"Never Will I Doubt Again," moved on, and Hamlin, glancing backward as he rode past, took his place in advance beside Major Elliott.

CHAPTER XXXV.

The Indian Trail. The weather became colder as the day advanced. Scattered pellets of snow in the air lashed the faces of the troopers, who rode steadily forward, the capes of their overcoats thrown over their heads for protection. The snow of the late storm lay in drifts along the banks of the narrow stream, and the horses picked their passage higher up where the wind had swept the brown earth clear, at the same time keeping well below the crest. As they thus toiled slowly forward, Hamlin related his story to the Major in detail, carefully concealing all suspicion of McDonald's connection with the crime. It was growing dusk when the company emerged into the Valley of the Canadian. All about them was desolation and silence, and as they were still miles away from the position assigned for Black Kettle's encampment, the men were permitted to build fires and prepare a warm meal under shelter of the bluffs. Two hours later the main column arrived and also went into camp. It was intensely cold but the men were cheerful as they ate their supper of smoky and half-roasted buffalo meat, bacon, hard-tack, and coffee.

In response to orders the Sergeant

py, nor the report of our Indian scouts. We supposed Black Kettle to be farther south on the Washita. How large was the pony herd?"

"We were not near enough to count the animals, sir, but there must have been two hundred head."

"A large party then, at least. What do you say, Corbin?"

The scout addressed, conspicuous in his buffalo skin coat, leaned against the tent-pole, his black whiskers moving industriously as he chewed.

"Wal, General," he said slowly, "I know this yere 'Brick' Hamlin, an' he's a right smart platoonman, so'er 'er no sojer. If he says he saw that pony herd, then he sure did. That means a considerable bunch of Indians, that, er tharabouts. Now I know Black Kettle's outfit is down on the Washita, so the only conclusion is that this yere band that the Sergeant stirred up is some new tribe or other, a-driftin' down from the north. I reckon if we ride up their valley we'll hit their trail, an' it'll lead straight down to them Cheyennes."

Custer took time to consider this explanation, spreading the field map out on his knees, and measuring the distance between the streams. No one in the little group spoke, although several leaned forward eagerly. The chief was not a man to ask advice; he preferred to decide for himself. Suddenly he straightened up and threw back his head to look about.

"In my judgment Corbin is right, gentlemen," he said impetuously. "I had intended crossing here, but instead we will go further up stream. There is doubtless a ford near Buffalo Creek, and if we can strike an Indian trail leading to the Washita, we can follow easily by night, or day, and it is bound to terminate at Black Kettle's camp. Return to your troops, and be ready to march at daybreak. Major Elliott, you will take the advance again, at least three hours ahead of the main column. Move with caution, your flankers well out; both Hamlin and Corbin will go with you. Are there any questions?"

"Full field equipment?" asked a voice.

"Certainly, although in case of going into action the overcoats will be discarded. Look over your ammunition carefully tonight."

They filed out of the tent one by one, some of the older officers paus-

ing a moment to speak with Hamlin, his own captain extending his hand cordially, with a warm word of commendation. The Sergeant and Major Elliott alone remained.

"If I strike a fresh trail, General," asked the latter, "am I to press forward or wait for the main body?"

"Send back a courier at once, but advance cautiously, careful not to expose yourselves. There is to be no attack except in surprise, and with full force. This is important, Major, as we are doubtless outnumbered, ten to one. Was there something else, Sergeant?"

"I was going to ask about Miss McDonald, sir?"

"Oh, yes; she is safely on her way to Camp Supply, under ample guard. The convoy was to stop on the Cimarron, and pick up the frozen soldier you left there, and if possible, find the bodies of the two dead men."

Long before daylight Elliott's advance camp was under arms, the chilled and sleepy troopers moving forward through the drifted snow of the north bank; the wintry wind, sweeping down the valley, stung their faces and benumbed their bodies. The night had been cold and blustery, productive of little comfort to either man or beast, but hope of early action and

ated the troopers and made them oblivious to hardship. There was little grumbling in the ranks, and by daybreak the head of the long column came opposite the opening into the valley wherein Hamlin had overtaken the fugitives. With Corbin beside him, the Sergeant spurred his pony aside, but there was little to see; the bodies of the dead lay as they had fallen, black blotches on the snow, but there were no fresh trails to show that either Dupont, or any Indian ally, had returned to the spot.

"That's evidence enough, 'Brick,'" commented the scout, staring about warily, "that that was no permanent camp over there," waving his hand toward the crest of the ridge. "Them redskins was on the march, an' that geezer had ter follow 'em, or else starve to death. He'd a hunk back there, an' on yer trail with a bunch of young bucks."

From the top of the ridge they could look down on the toiling column of cavalrymen below in the bluff shadow, and gaze off over the wide expanse of valley, through which ran the half-frozen Canadian. Everywhere stretched the white, wintry desolation. "What was that pony herd?" Hamlin pointed up the valley to the place where the swerve came in the stream.

"Just below that point; do you see where the wind has swept the ground bare?"

Danger From Pneumonia

Lessened By Healthy Conditions.

At this season pneumonia is prevalent in many localities. Every year during the cold, damp weather this dread disease claims its victims by the hundreds.

The best possible preventive of pneumonia is to keep the system in a strong, healthy condition and not allow one's vital resistance to become lowered and if perchance, the system should become run-down or a chronic cough or cold develop which is hard to cure, take Vinol, our delicious cod liver and iron tonic without oil.

Mrs. Ellen Lytle, of Lima, Ohio, says: "I was weak, nervous and run-down, and pronounced by doctors to have a serious lung trouble. I was despondent by all, but I read in the newspapers what Vinol had done for others and decided to try it. I took six bottles of Vinol and am now in perfect health and never felt better in my life. I weighed 108 pounds when I began taking Vinol. I weighed last week 140 pounds." Smith Drug Co., Janesville, Wis.

END LIVER TROUBLES WITHOUT CALOMEL

Untrustworthy Drug, Thought to Loosen the Teeth, Now Made Absolutely Unnecessary.

Dr. Edwards' Olive Tablets—the substitute for calomel—are the mildest but surest, laxative known, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. Dr. Edwards has been calomel's uncompromising foe. His efforts to banish it brought out these little olive-oil-colored tablets, a rare combination of vegetable compounds mixed with olive oil. These pleasant, harmless little tablets do all the good that calomel does but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel, sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel at all, but to let Olive Tablets take their place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Olive Tablets when you feel "luggy" and "heavy." Note how they "clear" the clouded brain and how they "perk up" the liver.

At 10c and 25c a box. "Every little Olive Tablet has a movement all its own."

Honest Advice to Consumptives

Somewhere there exists a vast amount of skepticism as to the possibility of curing Consumption. We state none but facts, and are sincere in what we assert.

If we were afflicted with Tuberculosis, we should do precisely what we ask others to do—take Eckman's Alternative. Our family physician, Dr. J. W. Eckman, who has cured hundreds of cases of Consumption, would probably be fatal. However, I remained, and in February of 1902, I was taken with a severe attack of pneumonia. When I was pronounced sufficiently to walk about the house I was left with a frightful hacking cough, which no medicine I had taken could allay. It was at this time, March, 1902, that I learned of and started taking Eckman's Alternative. In a short time my cough was gone and I was pronounced well. Since that time I have had two slight attacks of pneumonia and I have resorted to no other medicine to effect a cure.

I am at present in excellent health and feel that as long as I can obtain Eckman's Alternative, I have no fear of Consumption. I cannot speak too highly for the good it has done.

(Signed) HOWARD L. KLOTZ, Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for more evidence.
